

## iOS App

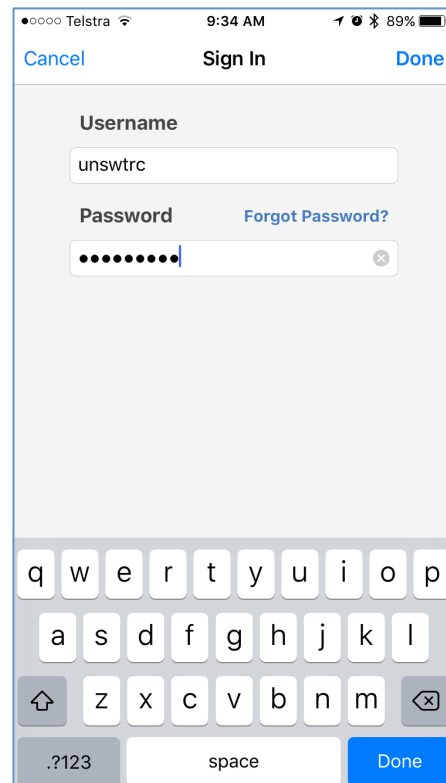

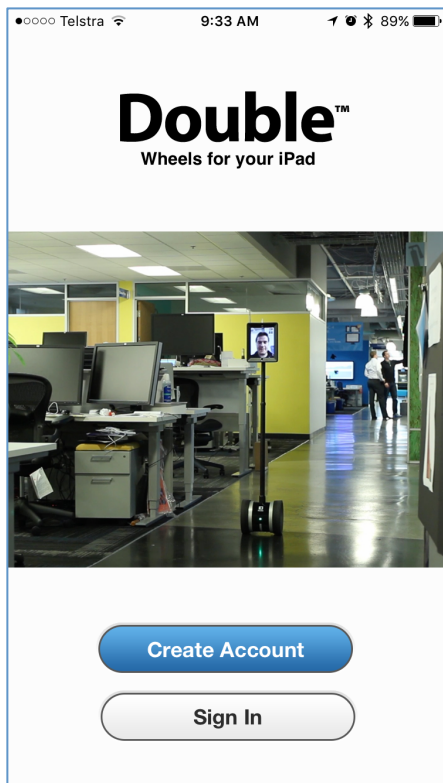

The Double iOS app can be downloaded by searching for “Double Robotics” on the Appstore or via the below link :

<https://itunes.apple.com/us/app/double/id589230178?mt=8>

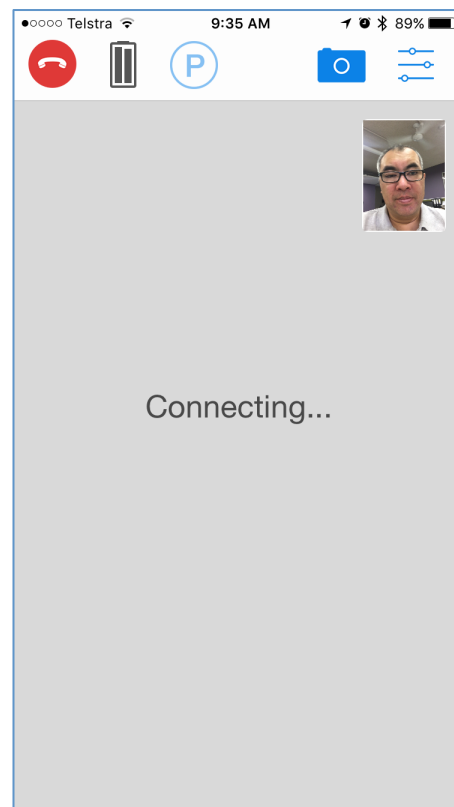

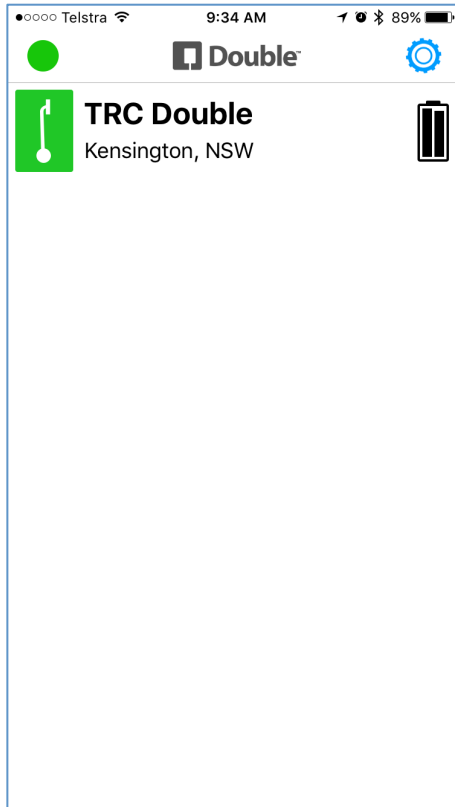

## Getting Started

When you launch the app you will be presented with the option to **Create Account** or **Sign In**

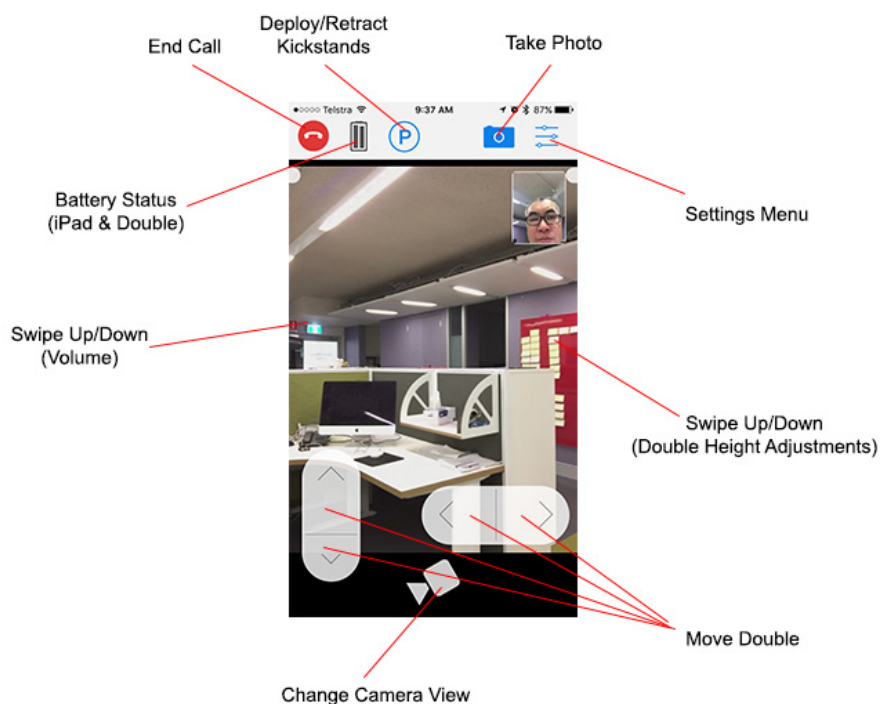

## Choose a robot

Once you have signed in you will be presented with a list of robot(s) available. Simply tap the robot you wish to drive.

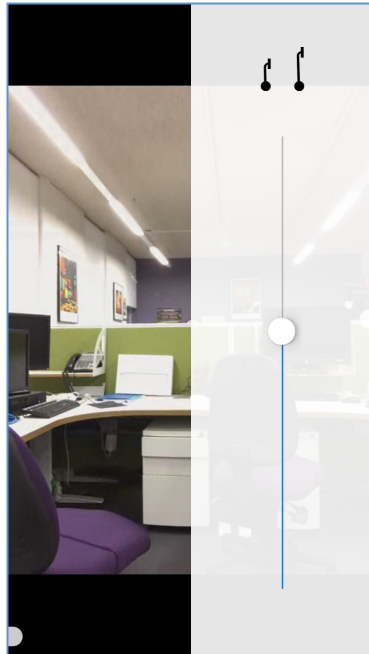

## App functions/controls

## Volume & Double Height Adjustments

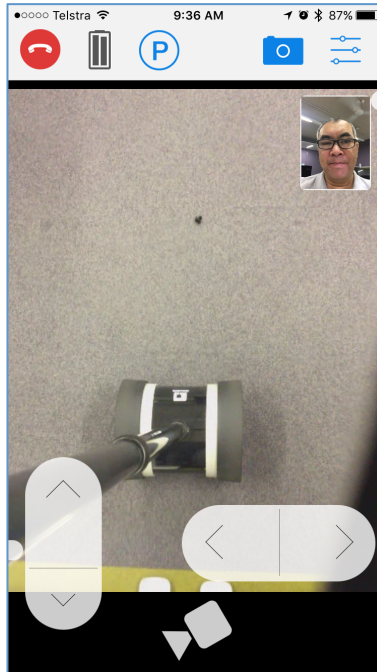

Volume : Swipe up/down on left side of screen

Height : Swipe up/down on right side of screen

## Switching Cameras

To switch **camera** between the 2 cameras of the iPad, simply tap the **camera** icon at the bottom of the screen.

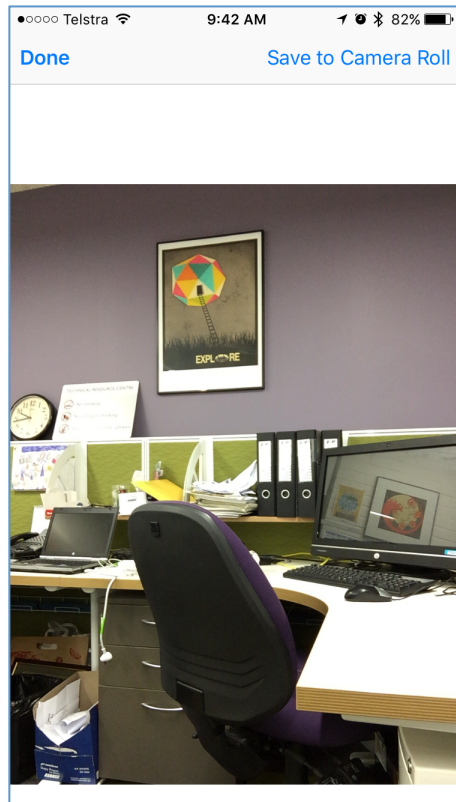

## Deploying / Retracting the kickstand

Tap the **P** icon to deploy or retract kickstand.

## Taking a photo

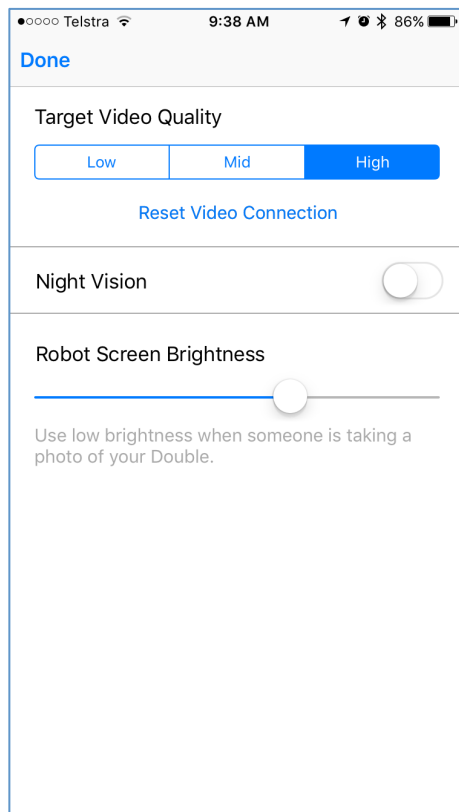

Tap the camera icon at the top to take a photo and then tap Save to Camera Roll if you wish to keep.

## Settings

You can set the Target Video Quality, Night Vision and Robot Screen Brightness
